# Ps2 Scph 10000 Free Mcboot ((LINK))

[Download](#)

Jun 20, 2020 - - My PS2 SCPH is 10000 - I always put my Freemcb in slot 2 - Some people said you should not save games to Freemcb, but I did not. Now I want to play my saved games to see if I should delete them and then restore it. - I can't find my Freemcb in my game. - I can't find my save folder. - My save folder is in my root drive. - I can't find my save folder in my Steam folder. - I need your Steam. This is where you store my game and I want to check how good it is. I don't know what to do. I already deleted all the games and I can't find the Steam folder. Please help me Steam can not see the game folder. There is a folder in the game's folder SteamApps but Steam will not go into it. I tried and copied and renamed and all ... Nope... Steam doesn't see the folder with the game Steam doesn't see the folder with the game I created. How do I change the path to the folder? Steam doesn't see the folder with the game Steam doesn't see the folder with the game that I created. How do I change the path? Steam does not see the folder with the game Steam does not see the folder with the game that I created. How do I change the path of a folder? Augmented (1). folder does not work, only through explorer. Augmented (2). and by the way I added a folder with the game in the library. Augmented (3). This is the path: C:\\Program Files (x86)\\Steam\\steamapps\\common\\Half-Life 2\\browse Why can't my Steam see the game folder? Steam does not see the folder with the game I created on my computer! How can I change the path to the folder. Augmented (1). the folder in the folder does not work, only through explorer. Completed (2). and by the way I added the folder with the game in the library Augmented (3). yes, added a folder, I also can not add a folder with the game, writes no path found Help, please. Installed Minecraft, and I can not play. The problem is that I have with the game Minecraft there is a problem. When I run it I get an error: "Failed to connect to the server. Error "Minecraft: Java. exe not found: 0". Please help me. Added (1). it doesn't work Problem with Minecraft, when you start the game you get an error: "Error: failed to connect to the server. Maybe the server is unavailable or you have a wrong address. Make sure the server address is correct and try again later. And so constantly. I tried reinstalling, tried upgrading, nothing helps. Previously, everything was fine, but then I started playing on a pirated version, while the game I stopped working save, had to install a licensed version. After that, the game started to break out as soon as I start the game. I tried reinstalling, make different restore points. Disconnected and uninstalled the game. Nothing helped. Game crashes without error, just starts playing music and everything. Helps only restart the game. Have to switch the gamepad, as well as on previous computers. The problem in the game or in the pc Tried reinstalling, making different restore points. Disconnected and uninstalled the game. Only helps by restarting the game.
